## A few thoughts from the Pastor:

*To use the concrete, tangible images of plants and shrubs to describe the Kingdom is for Jesus to show that the truth of His Kingdom is a vivid, living reality. The growth and abundance of plants living to feed and shelter others, reveals that the Kingdom is meant to have a purpose that shares life.*

*As we live our faith like the seed that is planted in the soil "we walk by faith and not by sight". The growth and fruitfulness of our lives is recognised by faith that sees the hand of God's providential love bringing our lives to fulfillment in Christ. Often we see this growth in others and not in ourselves. In our self-giving let us not worry about our cares and worries and have confident hope that God is directing us to live His abundant life.*

### Euthanasia 101:

### Working wonders with families in our neighbourhoods...

The Smith family came for counselling to deal with the sudden death of their parent. The children's grief was complicated by the fact that they were now residing with their other parent, with whom they had not spent a great deal of time, due to long work hours to provide for the family. As this grief stricken family learned about each other, how to relate, how to trust, how to love and build a new definition of "family", they began to open up to their counsellor and share what their life was like before their parent's tragic death. One child in the family shared that a trusted adult in their life used to be very abusive to them – physically assaulting them, locking them in closets, and making them hurt each other – to name just a few of the milder incidents. That disclosure to the family therapist led to the arrest of that individual and it also resulted in those children no longer feeling afraid of any future victimization. Closer family intimacy, safety, and a brighter future resulted for the Smith Family. Last year, ShareLife-supported Family Service agencies provided family counselling to over 5,100 people in the Greater Toronto Area.
